MORE & MORE

We, Daehong Ace Construction Co., Ltd., aim to be a superior company that stays with customers forever by providing enhanced services listening to their valued opinions.

Treasuring individual talents, we endeavor to become a consistently growing company building on the human resources management philosophy emphasizing the notion, "Good people make good companies".

Success and satisfaction of customers
is the goal of DAEHONG ACE Construction.

Graduated from Hanyang University(Civil Engineering major) and with 15 years of job experience at Korea's representative construction company, Daewoo Engineering & Construction Co., Ltd., I was able set up the company worthy of its name by participating various national projects contributing to the national economic development including Rapid-transit Railways, subways, Housing-site development, as well as large-scale underground excavation constructions for the last decade since the foundation of Daehong Ace Construction Co., Ltd. In 1996 repeating the development and growth.

From March, 2003 to this date, I've held various posts including an operation council member, representative member, and vice-chairman of the Earth Works Council (Korea Specialty Contractors Association), and starting from September of 2006, I filled in the seat as the 8th Chairman. Additional posts include a member of the Construction Industry System Improvement Committee (central committee),/Vice-Chairman of Seoul Metropolis branch,/Chairman of Labor Policy of Korea Specialty Contractors Association; Director of Korea Research Institute for Construction Policy; a member of Construction Advancement Forum, (Ministry of Construction & Transportation); and Head of Operation for Korea Special Contractor Financial Cooperative.. With such duties and as a representative contractor, I am expending my efforts to improve the status and to protect rights and interests of whole construction industry.

DAEHONG ACE Construction Co., Ltd

CEO **Shin Hong Kiun**

신 홍 규

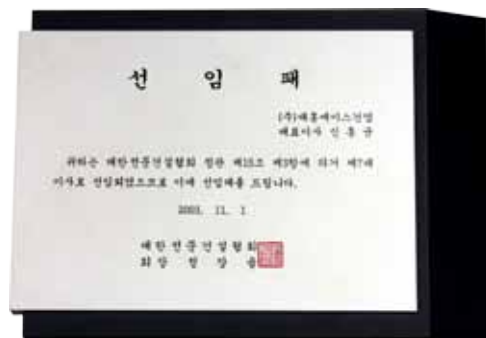

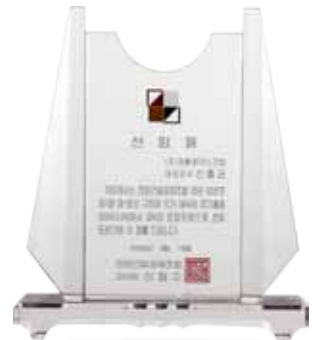

Korea has officially recognized integrity of Daehong Construction and major domestic construction companies validated our efforts and capability. Additionally, CEO of Daehong Ace Construction made variety of contributions to the development of Korea's construction industry.

With the technical skills accumulated domestically, we shall instil Dahong Ace's efforts throughout the world.

2013 is the first year in which Daehong Ace Construction challenges the global construction market. Since the foundation, we've been developing cutting-edge technology and know-hows along with domestic leading construction companies.

Thus, from now on, we'll proceed to build a global construction company worth of customer trust by concentrating all of our strength in improving competitiveness through the Quality Management Certification systems while organizing the designing and construction standards establishing technology-oriented work systems.

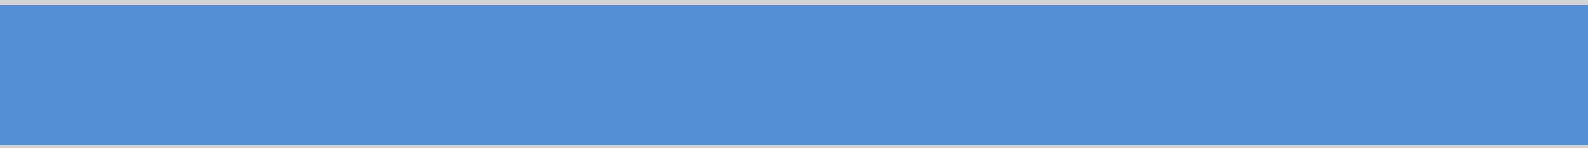

Thank you,

Head of International Division

Project Director **Justin Lee**

Geum River Restoration Project

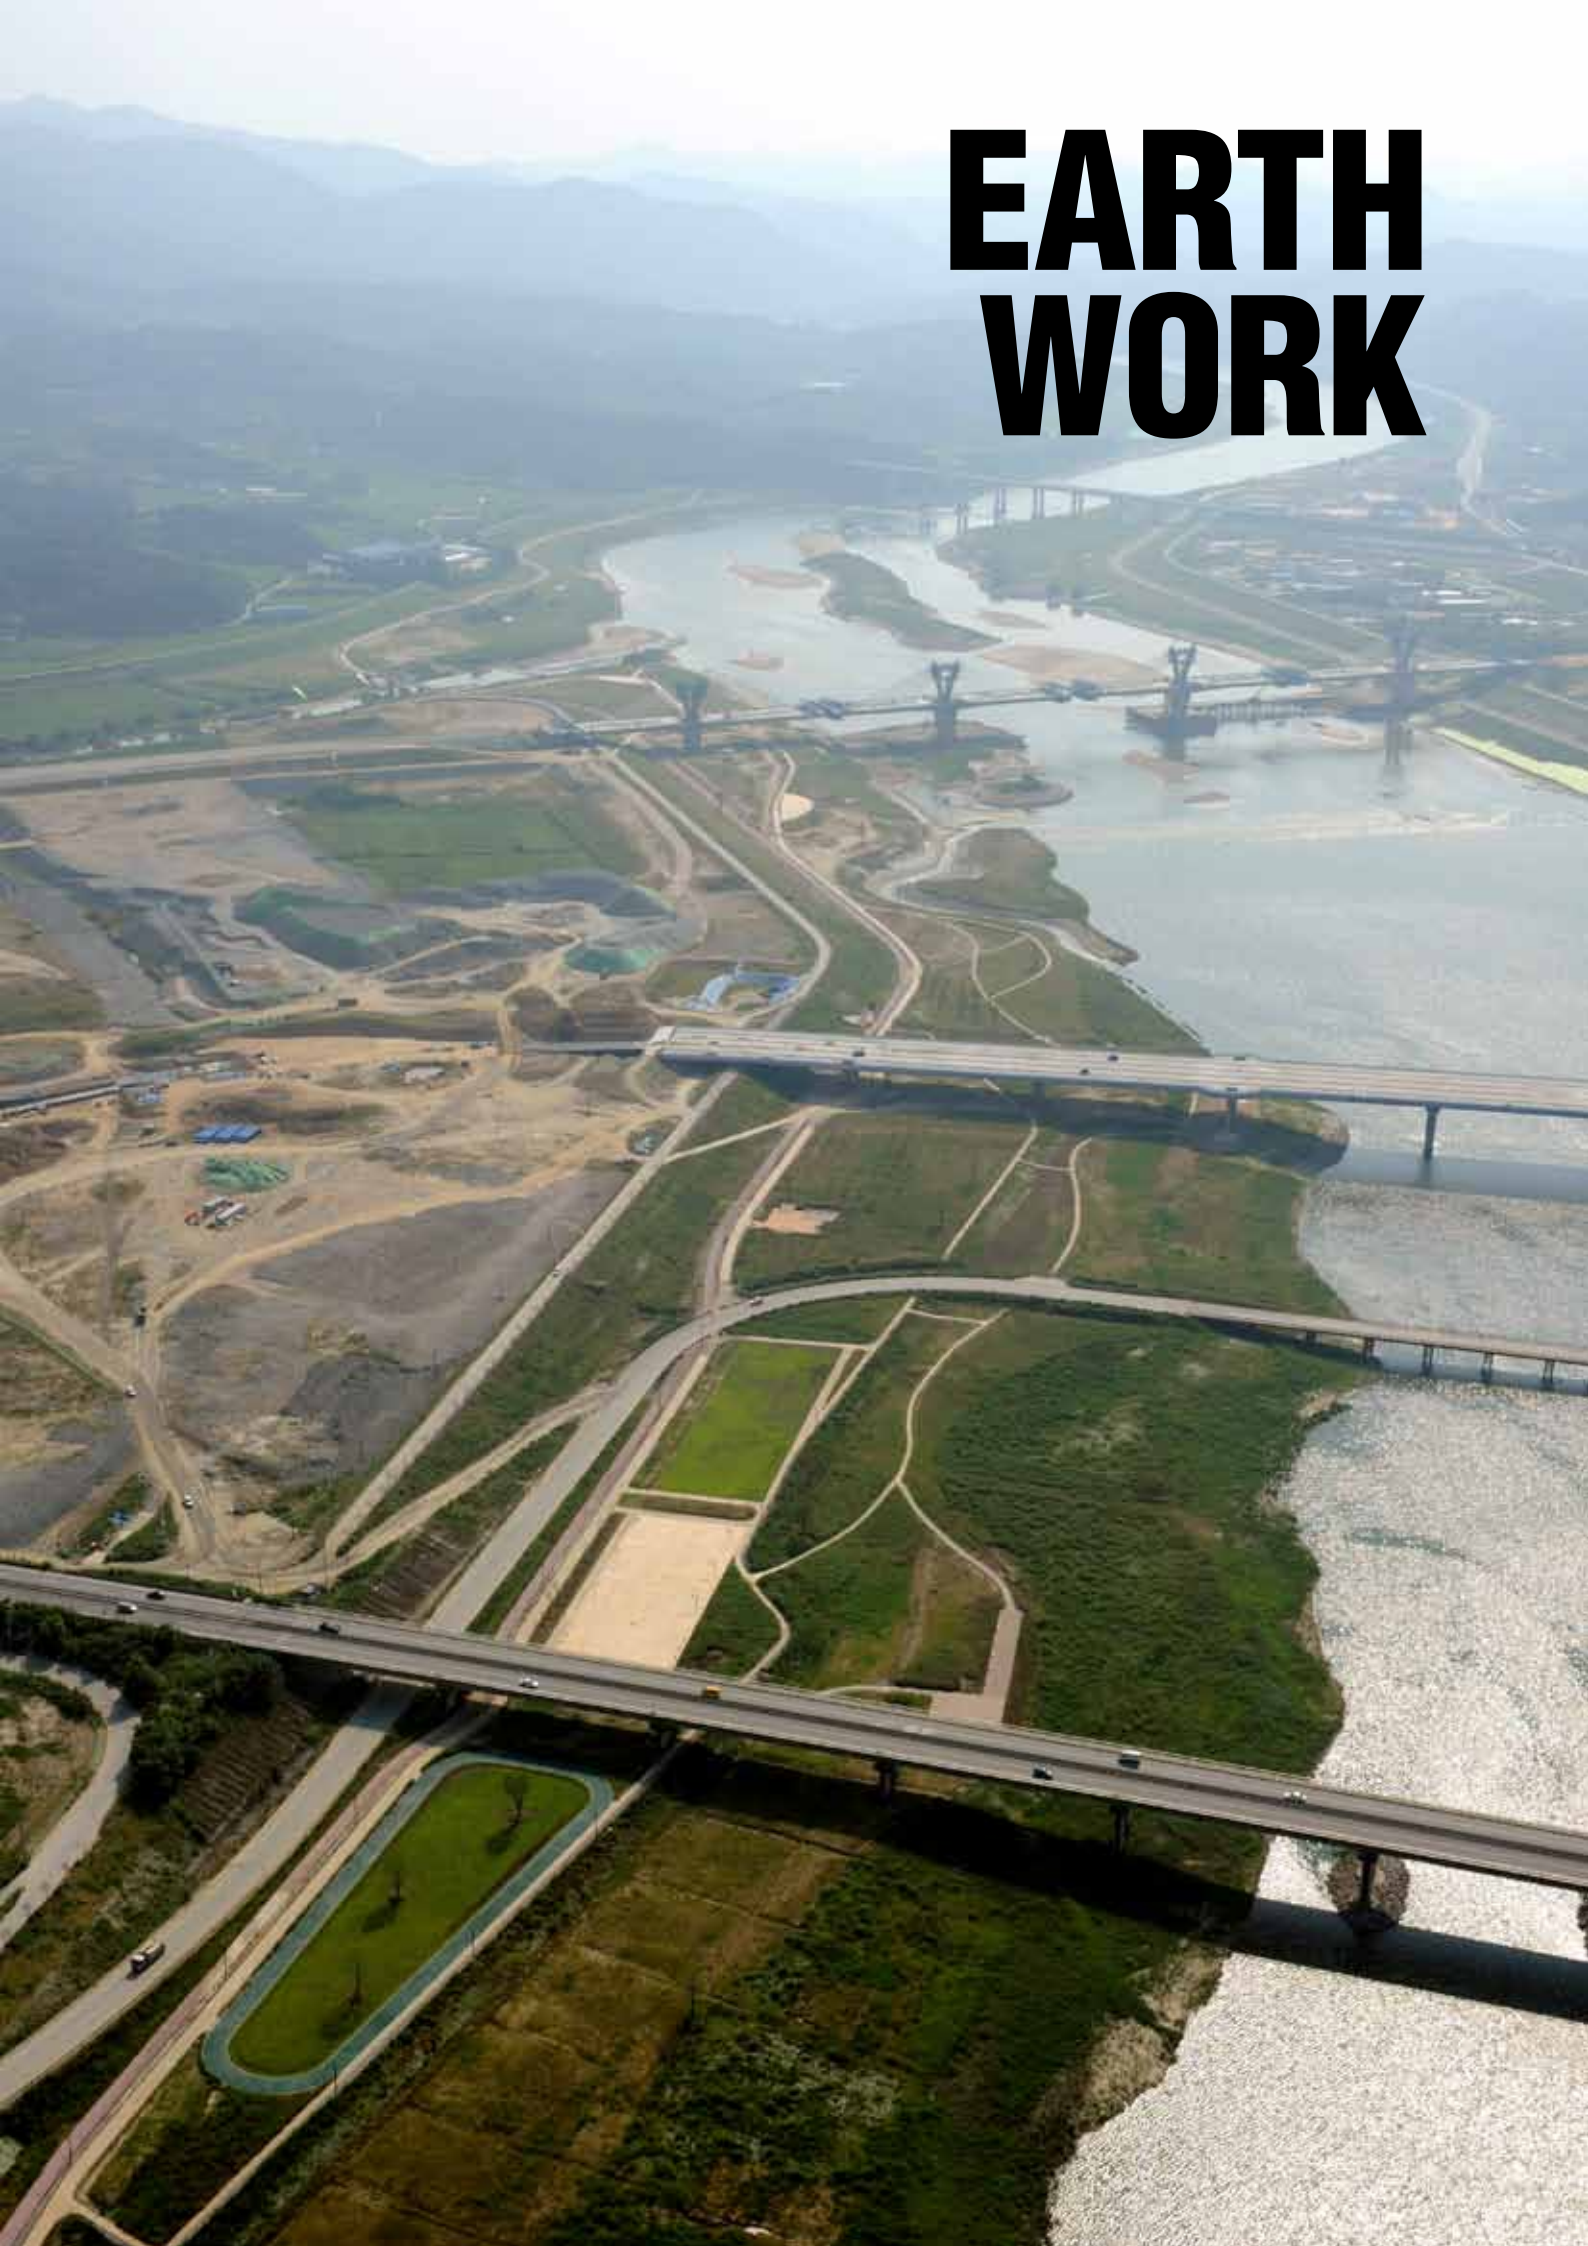

Construction site: Sejong-city region, Chungnam

Purpose of construction: To control natural disasters(flooding & drought), construction business for Life park

Construction details: river maintenance 15Km, 3 sites of Bridges, 1 sluice gate, 1 small-scale hydroelectric power station, bicycle route 30Km

EARTH WORK

Construction of Godae port harbor background land

Construction site: Dangjin-city region, Chungnam

Purpose of construction: To secure background land & dock site by reclaiming public waters

Construction details: Reclaiming work of 500,000m² area & site renovation

EARTH WORK

Tunnel Construction work for National Expressway No. 30 Line Sanju~Andong Section(5th Zone)

Construction site: Euseong-gun, Gyeongbuk

Purpose of construction: New construction work of national express No. 30 line

Construction details: Tunnel extension 3.6Km, 4 lanes (bi-directional)

TUNNELING WORK

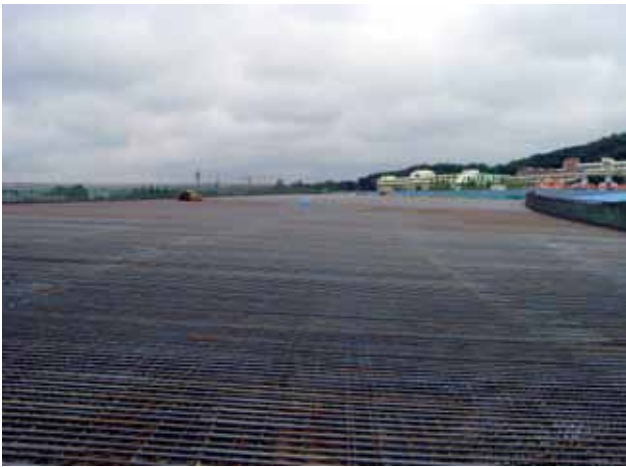

Construction of Cheonan Northern Main Road (No.4 Local Industrial complex)

Construction site: Cheonan-city, Chungnam

Purpose of construction: New construction work for Cheonan highway access road

Construction details: bridge(L=1,160m), underground motor way(L=700m), 4 lanes(bi-directional)

BRIDGE WORK

Daegu~Pohang Highway

Construction site: Gyeongsan-city, Gyeongbuk

Purpose of construction: new construction work for Daegu~Pohang Highway

Construction details: Highway(L=5.9Km: bi-directional)

ROAD WORK

Railway construction of Yeongdong Line

Construction site: Taebaek-city - Samcheok-city, Gangwon-do

Purpose of construction: The only domestic improvement work of over-aged Switch-Back railroad line

Construction details: 1 depot, excavation box(L=600m), tunnel(L=15Km)

RAILROAD WORK

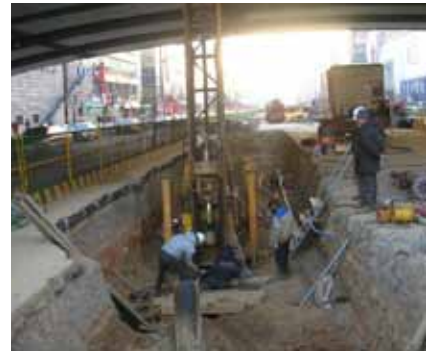

Ori-Suwon Double-Track railway(3rd Zone)

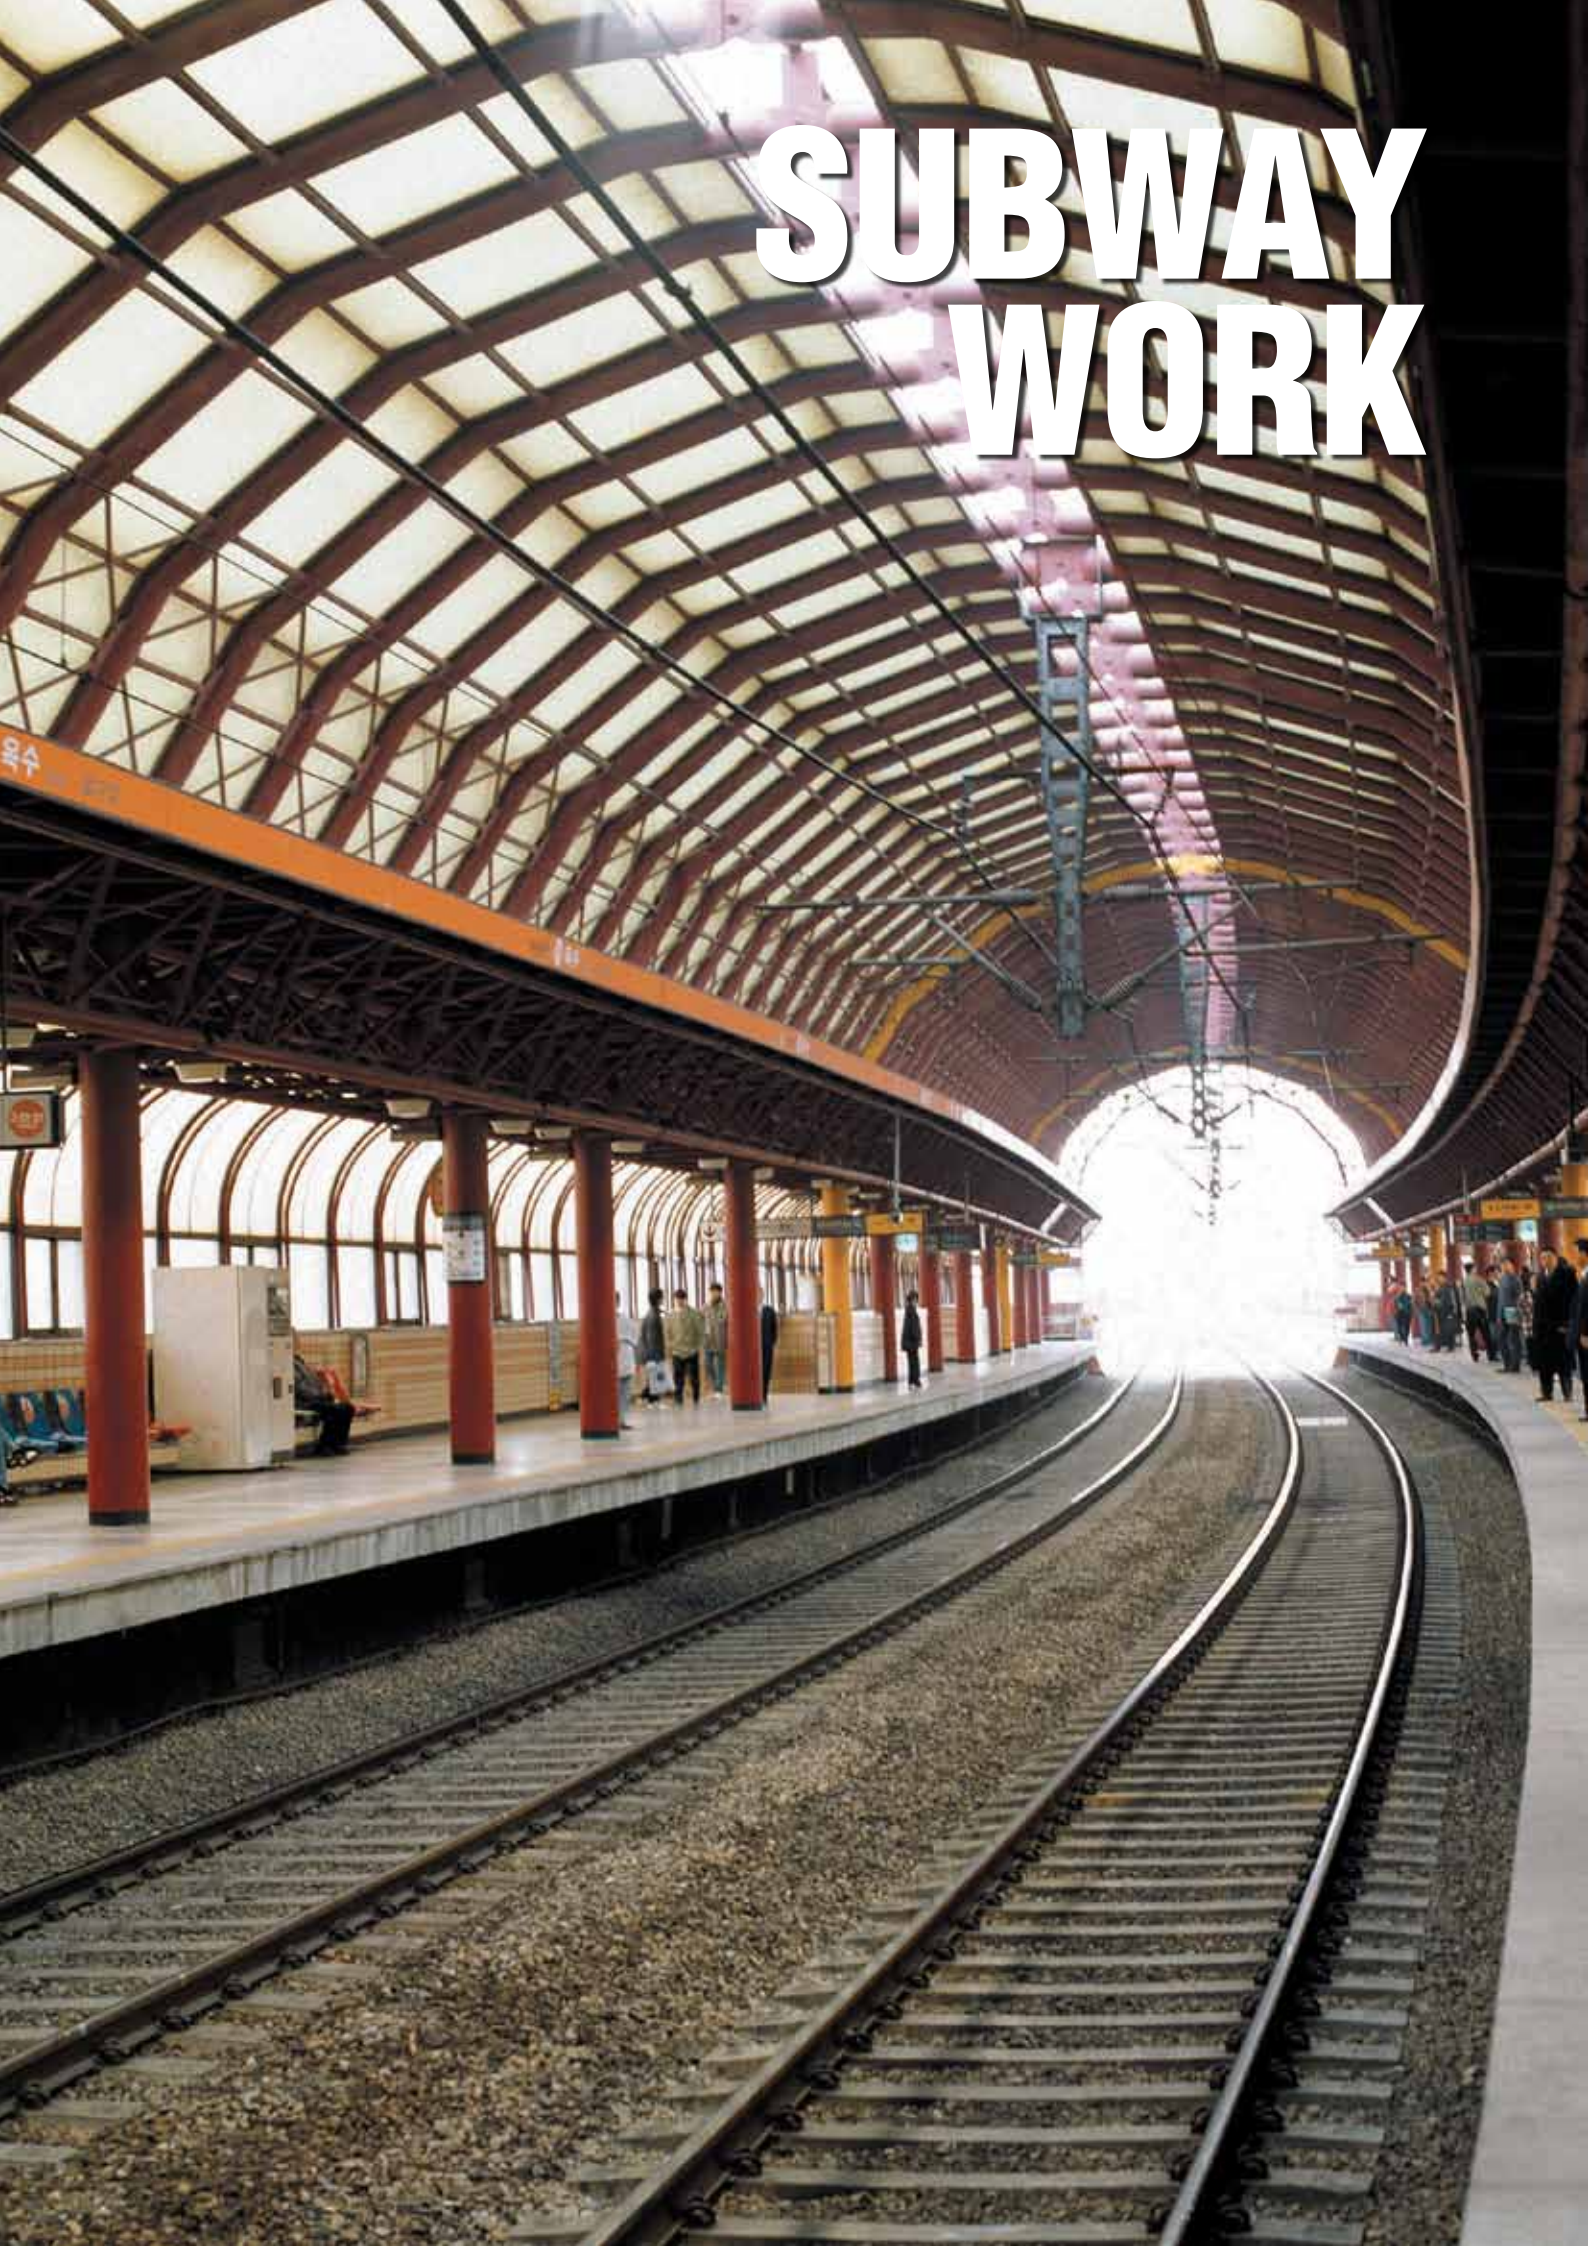

Construction site: Suwon-city, Gyeonggi-do

Purpose of construction: To secure metropolitan region traffic network

Construction details: 1 depot, excavation box(L=1,000m)

SUBWAY WORK

New Bundang Line 5-3 Zone(Seoul Subway 911 zone)

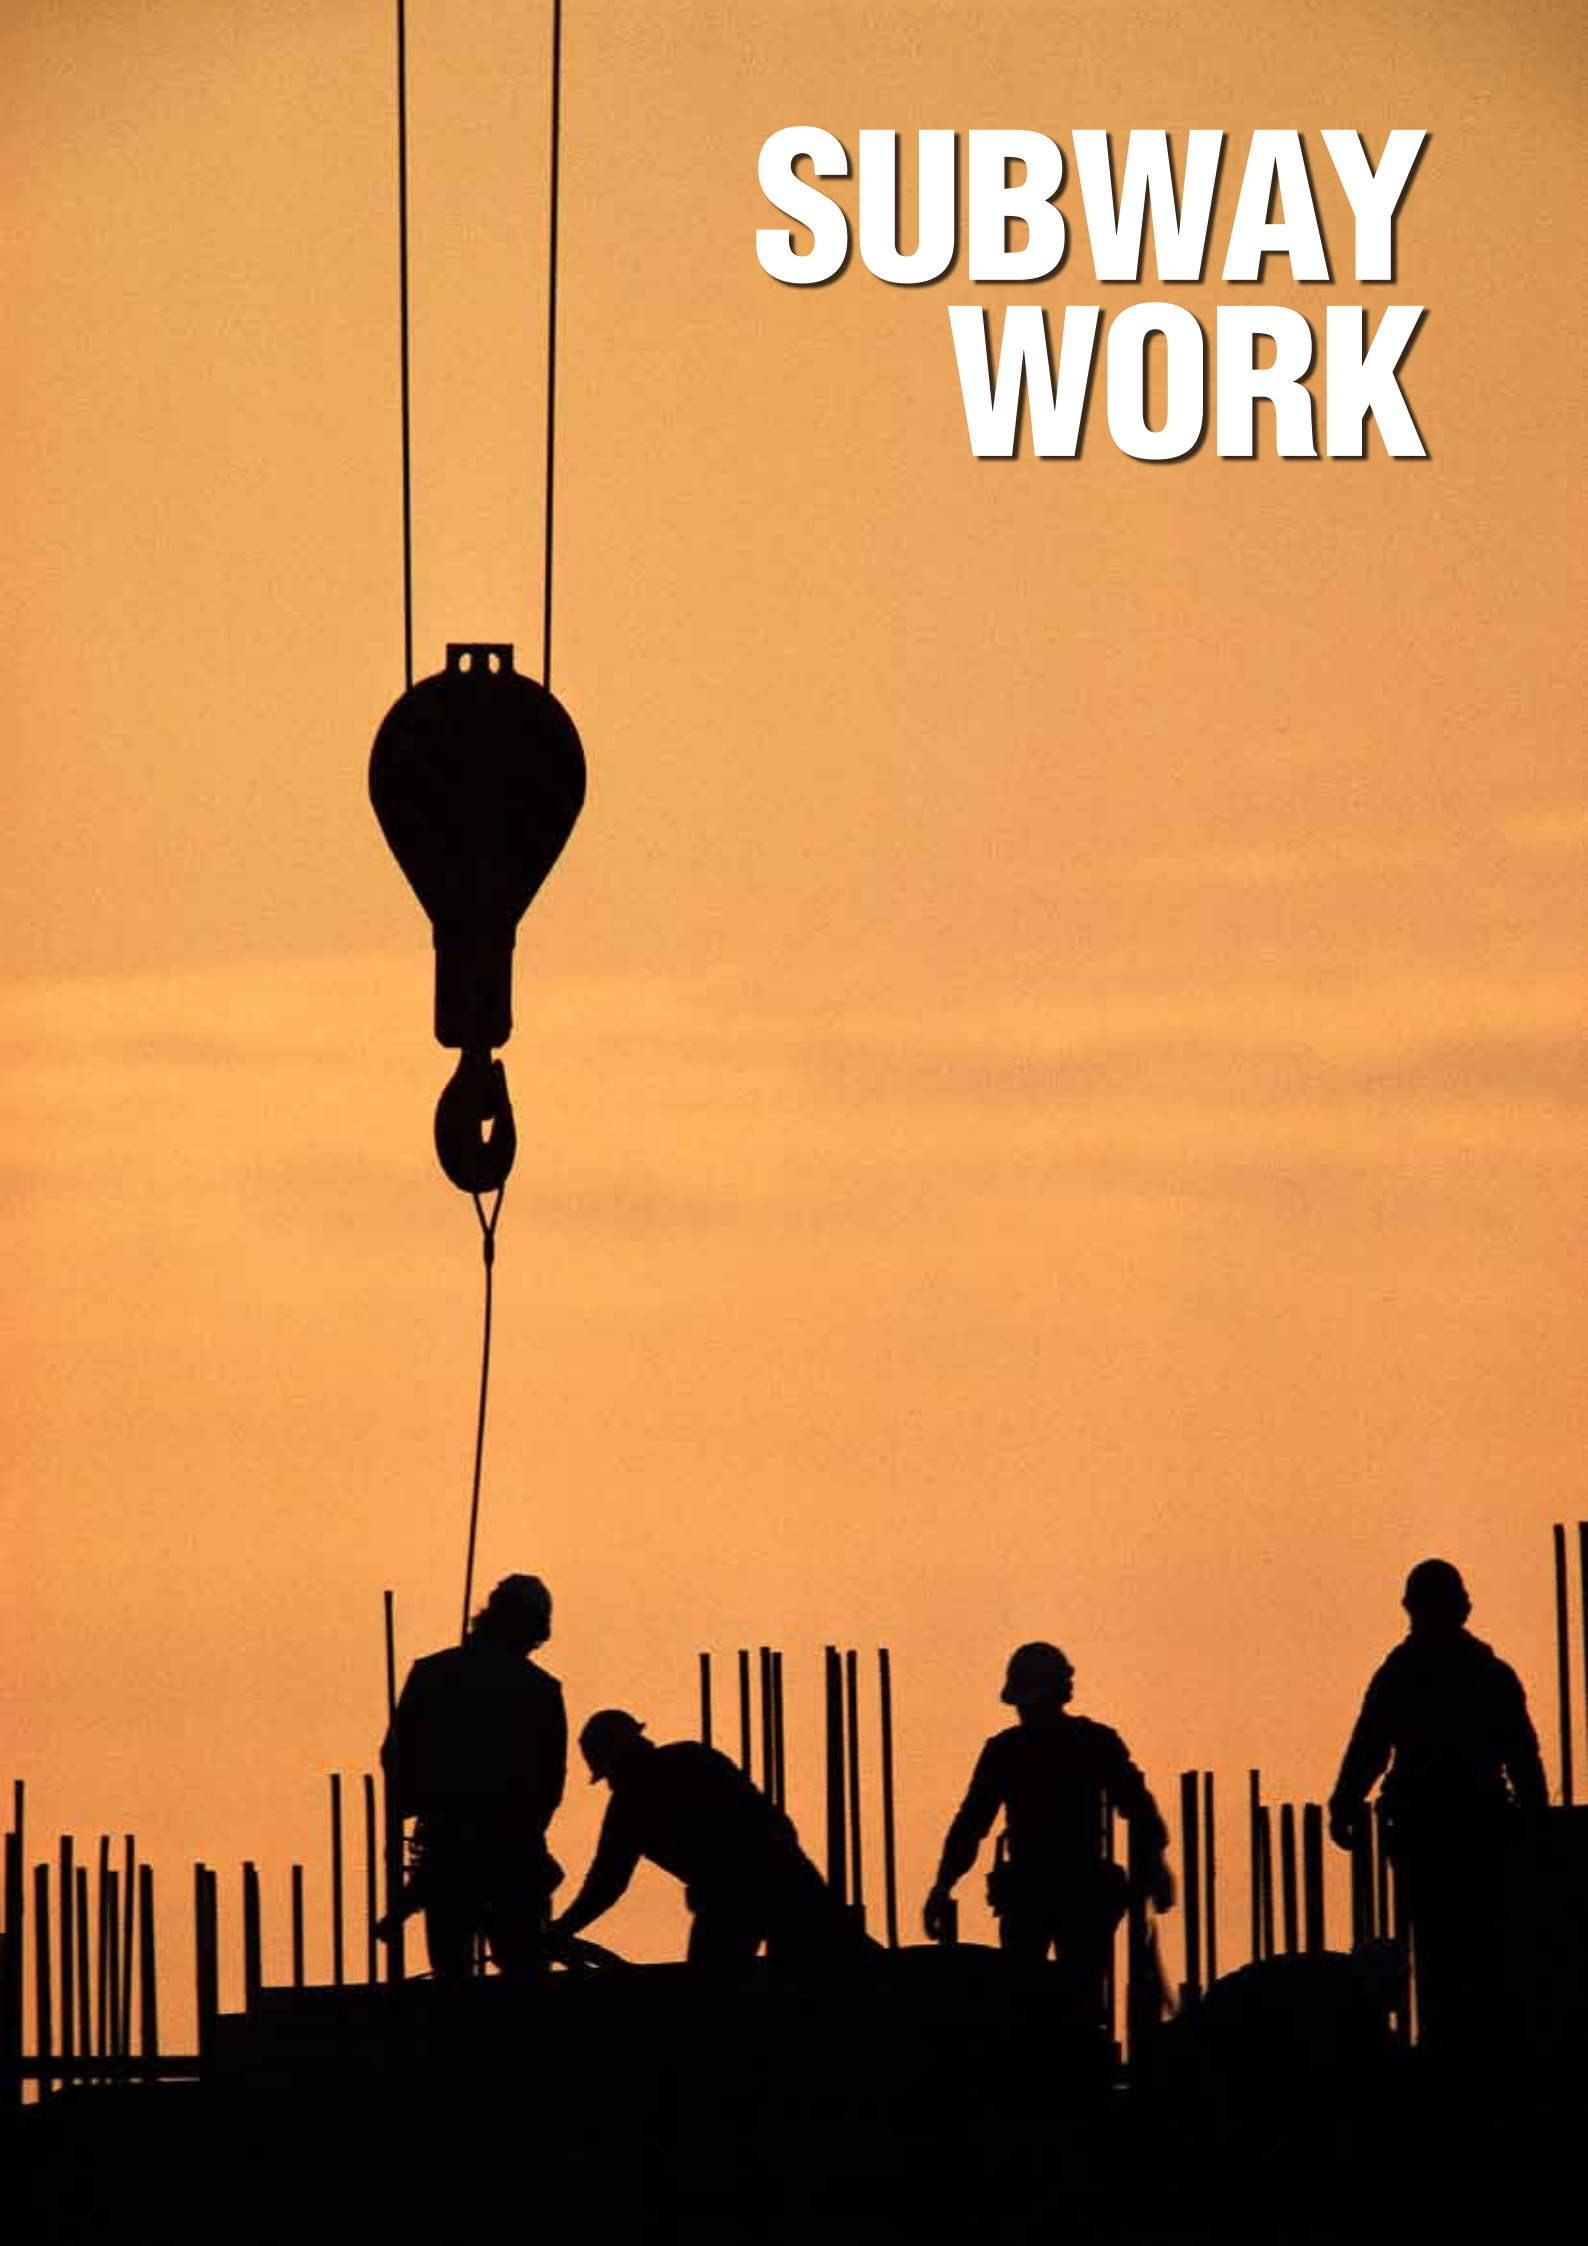

Construction site: Seoul

Purpose of construction: To secure metropolitan region traffic network

Construction details: 1 depot, excavation box(L=1,000m)

SUBWAY WORK

Dongbu Steel Hot Roll Plate factory

Construction site: Dangjin-city, Chungnam

Purpose of construction: Building batch steel works using electric furnace

(Production facility of 2,500,000 ton/year)

Construction details: steel manufacturing, continuous casting, rolling, distribution, water treatment sectors

(Rebar: 30,000 Ton, Ready-mixed concrete: 250, 000m³)

PLANT WORK

Donghae port Limestone Storage facility

Construction site: Donghae-city, Gangwon-do

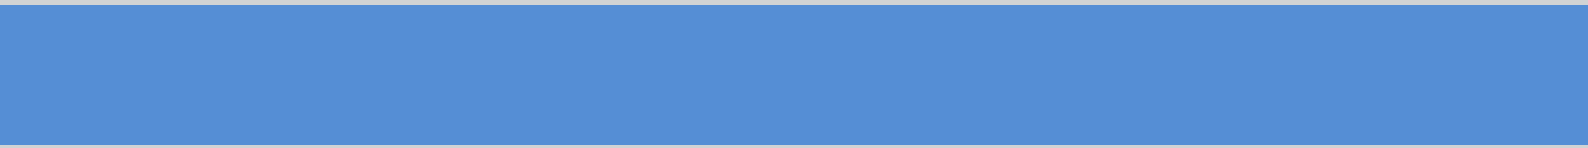

Purpose of construction: To build limestone(raw material for iron ore) storage facility

Construction details: 1 underground facility, 4 silos(D=28m, H=40m)
